

Cable-Snake® Pro

The tread-proof "Cable-Snake®"

Cable-Snake®
Professional Cablemanagement

The cable guiding system Cable-Snake® Pro is particularly tread-proof and thus particularly suitable for laying in corridor areas with heavy foot traffic.

The tread proof is **80 kg** when stretched and approx. **120 kg** compressed.

Cable-Snake® Pro, Easy-Outlet-Switch

Cable-Snake® Pro, Easy-Outlet-I

Cable-Snake® Pro, E-Cube M

The system is compatible with Cable-Snake® Cube and Cube MX and can be easily connected with these systems. A wide range of accessories makes the system 100% network compatible and expandable at any time.

Easy-Zip
Tool-free installation, like a zipper

Flexible in length
Also useable as closed cable channel for higher tread resistance

2D/3D capability
Rolling characteristic optimised for ergonomic furniture

Turning-force-stability
Turning force stability due to patented connection

Tread-proof
Tread-proof stretched up to 80 kg
Tread-proof telescoped up to 120 kg

Easy-Switch
Junction box for networks with up to 4 connection points

Easy-Cover
Compatible to Easy-Cover ceiling-outlets

Easy-Outlet
Compatible to Easy-Outlet floor-outlets

Floor-Outlet
Compatible to all common floor-outlets

Easy-Bridge
Compatible with Easy-Bridge cable bridge

Cable-Snake® Pro

The tread-proof "Cable-Snake®"

Cable-Snake®
Professional Cablemanagement

The integrated 2D/3D system has been optimized for ergonomic furniture so that it unrolls automatically with height-adjustable desks like a caterpillar track. If certain higher forces are exceeded, the system is fully 3D-mobile and lengthflexible. In addition, the integrated memory function keeps the chain in the desired position.

Cable-Snake® Pro is telescoped and also useable as a closed channel. The high-quality design with textured surfaces meet the most demanding requirements.

Easy-Zip system developed by Q-LAB® cables can be easily threaded through like a zipper.

With the Easy Rope tension cord can resist traction forces up to 100 kg.

The stainless steel mounting rod Easy Steel makes rigid mounting possible such as desk channels or on the floor. The system is compatible with Aluminium-Cable-Bridge Easy Bridge and can be easily connected with these systems. This creates a fully networkable flooringsystem, in which different curves and straight lines are possible. Easy Tape velcros fix this system on carpets

Technical Data

Capacity up to about	30 cables
Stretched lengthwise, 34 chain links, approx.	100 cm
Length pushed together, approx.	70 cm
Compressibility, approx.	35%
Material	Polypropylen
