

\*Single door with brushstrip option

Frameless, 'perfectly-flush', through-desk access port for the discerning user, the axxessPLUS represents the top-of-the range in through desk units. Developed to satisfy the most discerning desk-user, axxessPLUS maintains the superb finish of the most luxurious desks, whilst providing easy access to power and data services. Available with two doors or one door with brush strip. Finishes available in silver naturally anodised aluminium or recessed naturally anodised aluminium to accept a suitable laminate.

## axcessPLUS twin-lid features

Cable guides at either end, guide the cables towards the lip, so that damage to the cables is avoided by scissor action of lid closing

Spring release lid allows cables to exit while main lid is lowered.

Flush mounting brackets to allow perfect surface match

## Optional caddy for power, data & AV

Power requirements can be configured to suit specifications for most worldwide countries.

Data cartridge can be removed to allow easier loading on site (available with keystone or 6c apertures)

Large compartment allows cables to be stored inside to avoid desk-top clutter.

## axcessPLUS brush-strip lid features

Cable guides at either end, guide the cables towards the lip, so that damage to the cables is avoided by scissor action of lid closing

Brush strip to allow easy and safe exit for cables

Flush mounting brackets to allow perfect surface match

## Features

Both axcessPLUS twin and axcessPLUS brush-strip lid can be utilized as simple but elegant ports to complement the table surface. Both options are available in silver/aluminium or recessed to allow the customer to apply a laminate of their choice. Recess depth: 0.8mm

Standard length: 272mm, custom lengths can be made subject to requirements and quantity. (Please call sales for details).

## Power and Data configuration (if applicable)

Power only / Data only / Combined (Power & Data/AV)  
Segregation between Power and Data/AV in combined axcessPLUS units.

## Fitting:

Cutouts should be made as detailed below. M5 threaded inserts should be used where possible. Please see website for more details on axcessPLUS fitting instructions.
