/// CASE STUDIES

Do you have an event coming up? Do you need safe, reliable, portable power on site?

Since 1977, Jackson Industries has been manufacturing products locally in NZ, and are experts in temporary power and lighting, with a dedicated range of equipment for events and shows, large or small, with both hire and purchase options available.

We are experienced supplying and installing portable power equipment and lighting for festivals and indoor/outdoor events, including markets,

sporting events, trade shows, weddings and other celebrations.

With one of the largest ranges of portable power equipment in New Zealand, and manufacturing on site, **if we don't have a solution available, we can custom-build one for you.**

Our equipment meets all NZ standards (AS/NZS 3760 and Shows and Carnivals AS/NZS 3002).

Talk to us about how we can power up your site or event.

Outdoor Events

(Motorhome Show 2019)

Weddings

Indoor Events

(Chicken Festival 2019)

Social Events

/// EQUIPMENT

LG16

- Supply Input Power: 32A, 3 phase+N+E, 415VAC IEC
