TPL[®] CHAIN LIGHTS

Jackson's Temporary Protected Lighting (TPL) will soon be added to the Lifeguard[®] Lighting range. The compact 100mm x 96mm TPL is intended for use on construction sites, and the IP68 rating makes it ideal for both indoor and outdoor applications. Our TPL is compliant with AS/NZS 3012:2019 (Construction and Demolition Sites) and tested to and compliant with AS/NZS 60598.2.20:2018 (Luminaires).

Typically manufactured as a 25m length, these can also be manufactured to suit the end user's specific requirements. The TPL chain lights are fully serviceable if damaged.
