

LV COMPONENTS & CONTROL

Through our longstanding relationship with Fuji Electric, and other suppliers, we stock an extensive range of Low Voltage components to provide electrical protection and electrical control for your switchboard or electrical safety requirements.

ELECTRICAL PROTECTION

Our range of electrical protection equipment includes MCBs, RCDs and MCCBs. We also stock medical grade P.O.A.G equipment (Equipotential Earthing System). All products are designed for protection against electrocution.

ELECTRICAL CONTROL

Our range of Industrial Relays, Industrial Contactors and accessories allow for flexibility and onsite modifications.
